Vadi Authentic Iranian Restaurant is part of the Novotel Hotel at Iman Khomeini International Airport in Tehran. The restaurant has a total area of 280 square metres and seats 140. The design elements are traditional motifs from Iranian art and architecture, given a modern touch with vivid colours, 3D effects and use of state-of-the-art technologies from floor to ceiling. The merging of reality and dreams in Iranian folklore has inspired the décor. Silk, dreamlike curtains serve to partition spaces while black mirrors cast reflections. The restaurant is separated from the adjacent corridor by wooden partitions which are inspired by the Seven Valleys of Love, the poem by Attar; these are the Valleys of Quest; Love; Understanding; Independence and Detachment; Unity; Astonishment and Bewilderment; Deprivation and Death.
